KLAAS FIETE KRUTEIN

Ph.D. Candidate in Industrial Engineering (Operations Research and Data Science)

@ fietekrutein@gmail.com ✉ 3215 NW 65th St, 98117 📍 Seattle, WA 🔗 klaas-fiete-krutein ⬡ github.com/singfie

EXPERIENCE

Research Associate
University of Washington – Supply Chain Transportation & Logistics

📅 Jun 2019 – Ongoing 📍 Seattle, WA

- Led collaboration with Municipality of Bowen Island in Canada and coordinated team of 2 people to develop evacuation plan.
- Slashed estimated evacuation time of isolated communities by 70% through mixed-integer stochastic optimization model, solved through meta-heuristics.
- Reduced route time for commercial trucks by 7% through combined OD-matrix estimation and route optimization framework that incorporates expected parking delays into vehicle routing.
- Developed demand-driven mixed integer model to optimize the location of commercial vehicle loading zones in urban areas.

Research Scientist 2 Intern
Amazon, Inc.

📅 Jun 2021 - Sep 2021 📍 Bellevue, WA

- Improved expected resource planning cost for trucks by 20% through routing-based resource optimization model using robust optimization and column-generation decomposition techniques in nationwide logistic network.
- Reduced manual adjustments in resource planning process by approx. 60% through flexible block-based resource planning tool.

Research Scientist Intern
Amazon, Inc.

📅 Jun 2020 - Sep 2020 📍 Seattle, WA

- Saved $26M in fixed costs per year in North American middle mile logistics network through combined planning and routing of multiple value streams with a shared equipment fleet.
- Reduced analysis time for equipment rightsizing and combined routing simulation from approx. 3 months to 12 hours of analysis time by leveraging big data warehousing, parallel computing and data pipeline integration.

Research Associate
University of Washington – Dep. of Industrial Engineering

📅 Sep 2018 - Jun 2019 📍 Seattle, WA

- Designed experiment, simulator set up, data collection, and analysis for a pilot workload study with flight simulator and developed systematic method for scenario selection.
- Developed a simulation model for investigating the effect of urban traffic density-based vehicle guidance systems on traffic flow.

Material Planner Intern
Tesla, Inc.

📅 Jun 2018 - Sep 2018 📍 Reno, NV

SUMMARY

Operations research professional with **2 years** of industry work experience and **3 years** of academic research experience specializing in optimization modeling and data science. Looking for a challenging role in data science or research to utilize my quantitative and leadership skills for organizational growth, as well as to enhance my domain knowledge for career growth.

MOST PROUD OF

🏆 **Research Output**
that is directly applied and helps organizations and people

📈 **Personal Growth**
experienced through balancing technical skills with project leadership and interdisciplinary collaboration to maximize impact of the dissertation project

STRENGTHS

Innovator | Team Worker | Leader
Problem Solver | Never Give Up Mentality

Optimization | Machine Learning
Simulation | Experiments | Statistics
Data Visualization | Cloud Computing
Linear & Non-Linear Programming

- Reduced number of missing parts in warehouse by 10% through statistical data analysis and machine learning model to identify causes of missing parts and predict inventory shortage.
- Streamlined cross-functional processes for improved material and information flow between three business units.

Supply Chain Improvement Manager
Airbus Operations GmbH

📅 Oct 2016 - Sep 2017   📍 Hamburg, Germany

- Reduced inventory capital tie-up by $100M through data-driven target-setting process for optimized inventory levels.
- Collaborated with Business Transformation Director on 5 year road map for improved supply chain function, and managed the resulting project portfolio.

Co-op Rotational Internship Program
Airbus Operations GmbH

📅 Aug 2013 - Oct 2016   📍 Hamburg, Germany

- Completed project-based engineering internships in engineering, production, supply chain, and quality departments.

EDUCATION

Ph.D. in Industrial Engineering
University of Washington

📅 Expected Aug 2022   📍 Seattle, WA

Dissertation: Optimization Modeling Approaches to Evacuations of Isolated Communities

M.S. in Industrial Engineering
University of Washington

📅 2017 – 2019   📍 Seattle, WA

B.Sc. in Industrial Engineering & Business Management
FH Nordakademie (University of Applied Sciences Nordakademie)

📅 2013 – 2017   📍 Elmshorn, Germany

Thesis: Framework for a Stock Opt. Strategy

Certificate of Proficiency in Industrial Engineering
University of Auckland

📅 2015 – 2016   📍 Auckland, New Zealand

AWARDS

Fellowship for High Potentials
Foundation of German Business (SDW)

📅 2013 – 2019

Fellowship for Graduate Studies Abroad
German Academic Exchange Service (DAAD)

📅 2017 – 2019

Fellowship for International Exchange
Institute Ranke Heinemann

📅 2015
